Diploma of Information and Technology

(Back end and Front-end development)

2021-Current

ABOUT ME

I am currently studying my diploma in full-stack and I am seeking a full time junior front-end position. Most of my skills are displayed in my portfolio using REACT as my Front-end library with CSS and Styled Components.

I have one semester left in my diploma and I am ready to take my learning to the next level with a job in

Web-development. I am a loyal, hard worker and committed to whatever project I take on. My background is in hospitality for the past ten years, from kitchen hand to head chef my responsibilities as a team player and problem solver has been instilled into my work ethic.
